

Who cares about productivity?

Just a **5% BOOST** in SME productivity would be amazing for the economy...

But apart from increased efficiency and higher profits, what would it mean for **YOU**?

Paying myself & my staff what we deserve

Reclaiming my weekends & evenings

Overcoming the things that hold my business back

Doing more school runs, bath-times & bedtimes

Using my time & energy to focus on being a good leader

Creating jobs & purpose for people in my community

Taking on the big brands in my sector – and winning

Improving the lives of my loyal customers

Valuing the environment as much as the bottom line

Instilling motivation & job security in my employees

Treating myself to a proper holiday once in a while

Yes, productivity means a lot to me

What would a productivity boost mean for you?

Please take our survey:

www.surveymonkey.co.uk/r/MyProductivity

We're a not-for-profit dedicated to boosting productivity among UK businesses. We're doing it by helping SME leaders do what you do best: improve, innovate & inspire.

Your response to this survey will help us better understand and support your ambitions.
